*The stress-relief program you presented for our staff surely was a pleasure. One thing I heard repeatedly was how "real" you were in conveying the information. You made it accessible, fun to hear and do, and really responded to the needs of the group. The staff felt heard, seen and cared for. It was great to see everyone laughing together...*

*I am a 2 year brain cancer survivor. I have gone through 2 brain surgeries, 25 days of radiation, and now on Chemotherapy. *I don't know how I can possibly describe not only Susie Mantell's voice, but the effect of her voice. It's incredible. Her words of her narration are equally incredible. All my stress centralizes in my neck and shoulders - I remember one of my last thoughts before drifting off was "all the tension in my neck and shoulders is gone!" Before I was even aware of it, I was asleep. My thanks to Susie for her insight and talent to be able to produce such an extraordinary journey. -Maureen J., Toronto, Canada*

*Christmas Eve I had surgery for a crushed disc after an accident. I took the CD to the hospital and began listening to it in the recovery room and then in my hospital room. During my recovery, I continued to listen to it. I think your CD had a lot to do with my healing, and I still go to sleep with it every night. (I am in my fifties, so it sure was not my youth that caused the quick recovery!)*

Your voice is so very soothing and it seems that it always addresses for me what I needed to hear that day. I wanted to thank you for the help in finding some Peace in my very stressful life.*
